

## County of San Diego JAMACHA BLVD PH 1 IMPROVEMENT PROJECT

Update #1  
March 2010

### Upcoming Activities

#### Construction Activities

#### Construction of road improvements will begin in March 2010.

During March, the following activities will occur:

- Construct temporary soundwall on the northeasterly segment along Jamacha Boulevard to protect the avian (bird) and least Bell's vireo during breeding season between March 15 and September 15.
- SDG&E (electrical) utility undergrounding on the northeasterly segment.
- May begin water line installation and earth grading at the southwesterly segment along Jamacha Boulevard.

#### Construction Impacts:

- Construction vehicles and supply trucks will be entering and leaving the project site.
- Please obey construction traffic control signage during and off construction operation hours along Jamacha Boulevard.

### Project Description

#### Elements

The road improvements along Jamacha Boulevard Phase 1 project will expand the existing two travel lanes of roadway to four, will add bikes lanes, and will provide sidewalk. The first phase of the project included the road segment approximately 1 mile between Spring Glen Lane and Huron Street in the vicinity of Spring Valley, Supervisorial District 2.

The project includes but not limited to:

- Installation of Otay Water District's new water line.
- SDG&E (electrical) utility undergrounding.
- Storm drains improvements.
- Sewer system upgrade
- Asphalt Concrete pavement resurfacing.
- Traffic signal improvements at Maya Street/Jamacha Boulevard and Whitestone Road/Jamacha Boulevard intersections.
- Omega St closure onto and from Jamacha Blvd and add separation lane along Jamacha Blvd separated from Jamacha west bound lane by raised island curb between Omega St and Huron St.

### Additional Information

#### General Traffic Information

- Minimal traffic impacts are anticipated in March. The existing temporary concrete railing (K-rail/barrier) along south side of Jamacha Blvd will remain in place during construction.

#### General Work Hours

- Work hours will be M-F from 9 a.m. until 5 p.m. All work behind the existing temporary concrete railing (K-rail/barrier) will be M-F from 7 a.m. until 5 p.m.
